

TiTaN's electro chemical division has been a pioneer in the field of Anode Manufacturing since 1981. TiTaN undertakes refurbishment and maintenance of all type of anodes..

Anode Refurbishment

Advantages Of Refurbishment

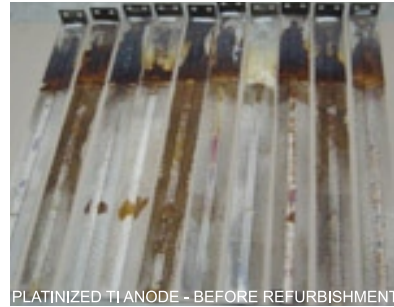

- Minimum cost ▶
- Reduced down time ▶
- Reduced capital investment ▶
- Enhanced life similar to new ▶
- Increased life time of equipment ▶
- Identification and correction of damages ▶

CHLOR ALKALI ANODE FOR REFRUBISHMENT

PERCHLORATE ANODE - BEFORE REFRUBISHMENT

PLATINIZED TI ANODE - BEFORE REFRUBISHMENT [®]

PLATINUM PLATING & COATING

Process

- ▶ Electroplating
- ▶ Thermal De-composition

MIXED METAL OXIDE COATING

Activities

- Refurbishment & repair of ▶
- Electrode Elements
- Electrolyzers ▶

Titanium Tantalum Products Limited

Estd. In 1981

ISO 9001 - 2008 Certified

U,U2 & R Stamp Approved

A N O D E R E F U R B I S H M E N T

CHLORATE CELL ANODE MODULE FOR REFRUBISHMENT

TiTaN undertakes
Re-coating of anodes
Refurbishment of electrolyzers
